

A Walk In The Woods
May Block by Bea a/k/a Holeesmolee

Finished Size 12" x 12"

Templates

Designer's Notes:

Block size is 12 1/2 X 12 1/2.....always start with a larger block because applique draws the block up. Square it up to the right size after it is finished.

I have given you the basic parts of the block: Skunk, tree and bird. There are no instructions for this block. Just let us see what you and Mr. Skunk have seen on your Walk in the Woods.

As I was putting the block together, I noticed the block looked good with less or more. You could just use mushrooms at the base of the tree, all purple flowers for violets, all yellow lazy susans or white daisy's. You can put lots of background trees or none.

I tried one background of blue, or tan for the ground like a path in the woods. Both looked good. You could add a turtle or butterflies or even mountains in the background.

Have fun and let us see you creative talents!
